Hi all,

Just posting this announcement because a few folks have told me they can't wait for Chapter 2. Good news! It came out at the same time as Chapter 1 so go ahead and give it a play.

I've been working steadily on Chapter 3 alongside my other big project, Tale of Enki. At this stage, I'd expect a December release date for Chapter 3 as it's very close to being finished. There'll be a bit of a break between Chapter 3 and 4 as I want to pay a lot of attention to the Tale of Enki release in February. After that it'll be full steam ahead for Chapter 4 and 5 to finish off the Azurael's Circle series.

I'm very glad that so many people are enjoying it. The reviewers are all very kind and I've been thrilled watching so many Let's Plays. It really makes the indie dev job worth it just seeing the entertainment people are getting from my work.

I'll finish off with this. Go pick up Chapter 2 and let me know your thoughts (good or bad).

All the best,

Jordan. Azurael's Circle: Chapter 3 - 30th November!:
